

PointSAT: direct geometric constructions and search

Published 23-point example

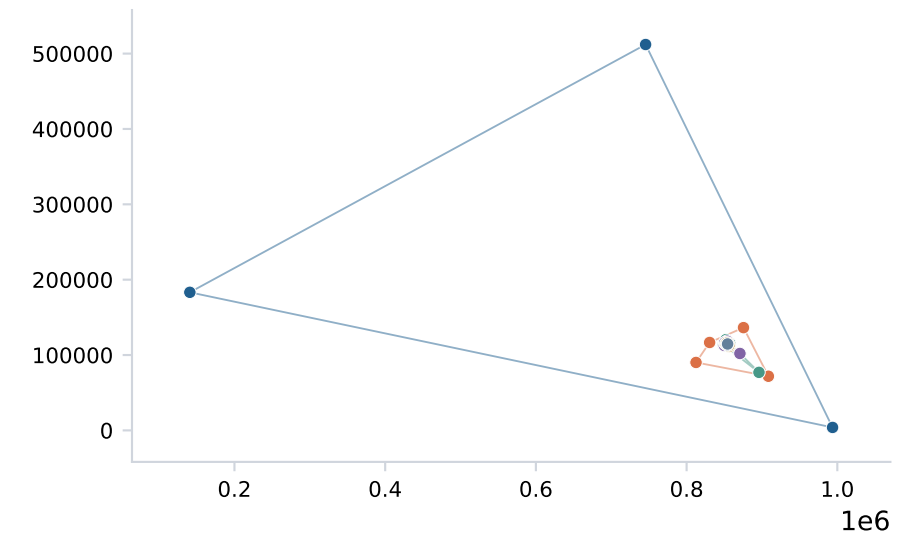

23 points · 672 × 566 integer grid
PointSAT paper, Figure 1

23 points, smaller coordinates

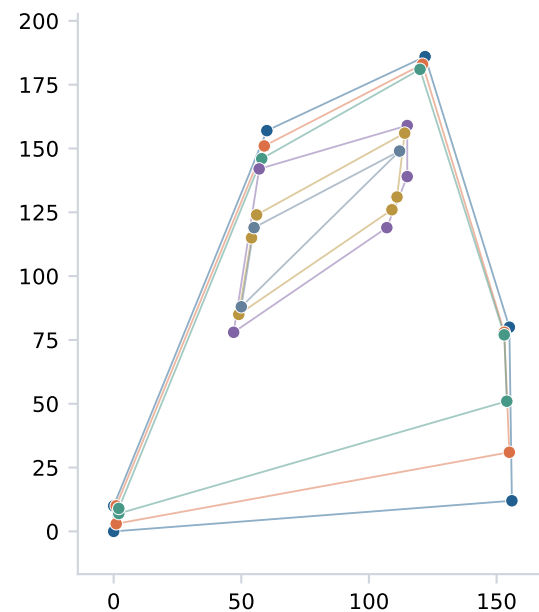

23 points · 349 × 346 integer grid
Seeded repair + exact compression

Fresh hybrid 23-point solution

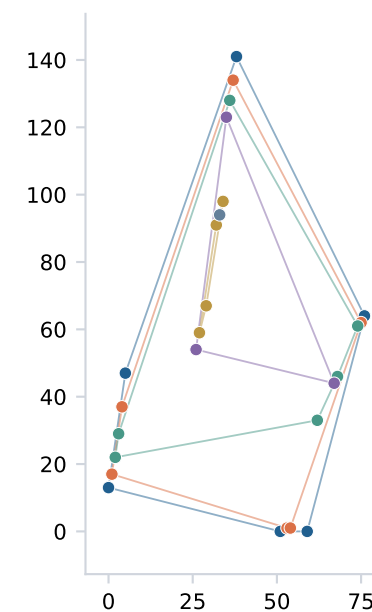

23 points · 852864 × 508126 integer grid
SAT partial realization + direct repair

32 points, no convex 7-gon

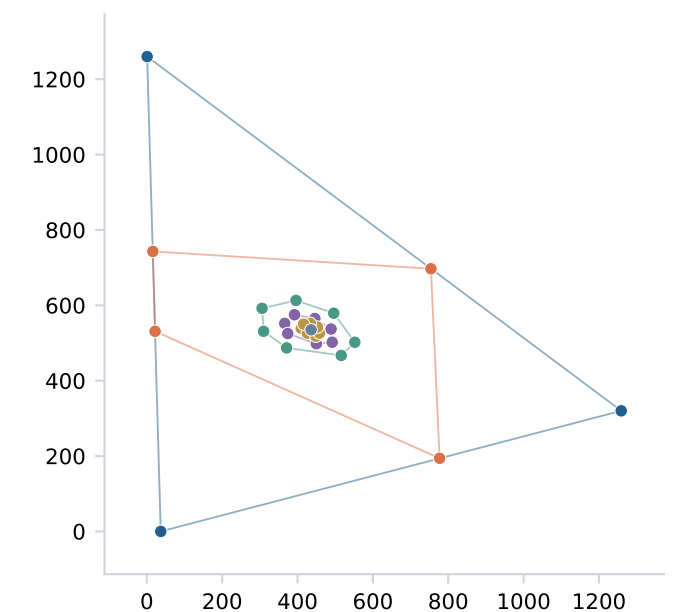

32 points · 156 × 186 integer grid
Known ES construction + compression

26 points, no 7-gon or 5-cap

26 points · 76 × 141 integer grid
Known ES construction + compression

Published 29-point benchmark

29 points · 1258 × 1260 integer grid
Overmars, 2001 · no empty 6-gon
